Re: Allen Tieri

To Whom It May Concern:

I have known Mr. Allen Tieri, since he started the Independent Film and Digital Imaging program at Governors State University in 2010. While he studied at Governors State University, he was a talented student as well as a brilliant graphic designer and a filmmaker. His performance as a young artist in my classes was extremely promising. From class assignments to his thesis project, he demonstrated a consistent level of quality work. He always presented his project work with a unique perspective of image creation – both in digital imaging and video production. I would also like to mention that he continually delivered all assignments and projects on time. A strong sense of responsibility is a rare and important value in a creative artist.

Allen has proven himself as an excellent collaborator. I had supervised a few group projects in which he was involved in a variety of different roles – cinematographer, graphic designer and director. He was focused on his duties and cooperated with his team members. I have heard a lot of positive feedback from his team members about what a great team player he was.

After graduating from GSU, Allen has been teaching media arts and animation courses at the Art Institute of Tinley Park. He is also operating his own design firm specializing in animation, interactive media and conceptual art. I believe his career as a versatile graphic artist combined with his digital filmmaking and experience with teaching make him an outstanding candidate for the position. I hope you will consider his application carefully. Please do not hesitate to contact me with any further questions you might have.

Sincerely,

Sang Hoon Lee, MFA
